here can be no could that the interest on the bonds will be punctually paid.

With the road properly equipped, and with one or more of the sections of the Camandaigua and Niagars Falls Road opened, the Directors are condident that the receipts of this road will be nearly if not quite doubled. The fact that the mere local receipts for the first year, with all its disadvantages, are sufficient to maintain the road is considered highly encouraging. The length of this road being forty-seven miles, the mortage debt will be about \$11,000 per mile, less than one-half the cost of construction, which makes this lean equally secure with the most unquestioned bond and mortgage. To secure the payment of the bonds, a mortgage has been executed in favor of Shepherd Knapp and Hiram Retchmm, Esquires. Trustees, on all the lands and fixtures of the Company, and also on all its income, issues and receipts; so that these bonds come under he denomination of both income and second mortgage bonds.

DRAPER will sell at Auction, on the 232,000 FIRST MORTGAGE SEVEN PER CENT. BONDS OF THE CORNING AND BLOSSBURG RAILROAD, due in 1872, and bearing Coupons for Interest, payable semi-sunually in New-York. This road extends from the Eric Railroad. Corning, to the Pennsylvania line, fourteen miles; it has been in operation for some years, with a large and increasing business of its ewn, besides being the only outlet for the whole business of the Trogs Railroad. The coal traffic from the celebrated Blossburg unnes all pass over this road, and the gradual immense development of its arguegate freight and passenger business have just compelled the Company to relay the line with a 60 ft rail on the broad gauge. To pay for this new track, \$180,000 Bonds were issued, of which \$52,000 only are now offered for sale. The circumstances of the road are most prospersus. It is leased for ten years to the Trogs Railroad Company, which Company works the road and pays to the Corning and Blossburg Company a net income amounting to two-thirds of its gross receipts.

SEVEN PER CENT. BONDS of the NEW-YORK and HARLEM RAILROAD CO.—

which is sufficient to pay 6 per cent dividends upon the capital stock, (\$600,000)

This estimate is based upon the local business alone. When to it is added a proper proportion of the stream of Western traffic—already immense, and augmenting daily—this road gives assurance to the Stockholders of large dividends.

Western traffic—already immense, and sugmenting daily—this road gives assurance to the Stockholders of large dividends.
Full anthority is given to issue those bonds, and to make them convertible into the 8 per cent preferred stock, and to treate a mortgage to secure them; so that the security in all respects is legal, as will be seen by reference to the opinion of Messra. Wim. A. Porter and Wim. Rawle, well-known lawyers of Philadelphia.

By reference to the previous statement, it will appear that a property costing \$1,100,000, is mortgaged for \$500,000, and that the estimated not earnings are put at \$72,300 an amount largely exceeding the 7 per cent interest on the bonds agreed to be issued.

Philadelphia, May 20, 1852.

References as to these bonds can be made to Shepherd Knapp, Alitred S. Fraser, or Daniel S. Miller, New York.
\$250,000 of the Bonds have been sold for the Iron on foreign account and for investment.
Sealed preponals for the remaining \$250,000 will be received at the office of J. A. UNDERWOOD a SON, No. 22 Merchants' Exchange, until 3 o'clock, on the 28th day of Jane, inst.

Payment will be required—20 per cent on notice of acceptance of the bid; 30 per cest on the 18th of July, and the bishance on the 18th of July, and the opening of the bids.
